CADAVER ARTHROPLASTY COURSE

2 CME
Points to be
awarded

Cadaveric dissection is the best mode of learning before embarking on live surgeries as it gives the feel of human tissues. This specially designed course, is a hands-on educational program providing an in-depth experience in shoulder arthroplasty and covering critical topics pertaining to the same. Internationally acclaimed faculties who travel around the globe for conduct of cadaver courses will be conducting this course. At the end of this course participants will be able to perform shoulder arthroplasty.
